KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Social commentary and smut!Von Ein KundeRarely does a work of fiction resonate as strongly as this one.On one level, it dissects the social construct known as 'the relationship' and extracts meaning from the guts of love. And yet, at another level, the work is a bitter commentary of the incompatible forces that wrack our world.The Major is obviously an embodiment of the modern industrial military complex, who has a few complexes of his own. The Librarian represents the faltering non-profit co-operative forces of the modern world --- forces which are feeling unloved and unsupported but continue to give and give and hate themselves for secretly wishing for capital and attention to come and sweep their troubles away.It is when the Librarian realizes that the man in her loving arms is a loving arms dealer that there is

both pain and pleasure from sleeping with the enemy. 1 von 1 Kunden fanden die folgende Rezension hilfreich. good
brainless read Von Ein Kunde This book is a good read for when you need a break. It has romance and tragedy. This
book has no deep seated problems for you to solve. It is just a good relaxing book

Kurzbeschreibung For four years Major Sam Griffin had stayed away from Serenity, Texas, gruffly avoiding the fact
that he was still heart-achingly in love with the woman who had almost married his brother. Now home on leave, the
devastatingly handsome pilot had to face beautiful Emma Dalton again. And though there was unmistakable yearning
in her eyes, Sam could never put down the roots he knew the shy librarian so strongly craved. When Sam finally had
the chance to win the heart of the woman he'd always loved, could he convince Emma that her home would always be

the Midwest, but after years in the Houston area, she considers herself a true Texan. Nikki says she's always been an
avid reader. Her writing experience was limited, however, until a friend started penning a novel and encouraged Nikki
to do the same. One scene led to another, and soon she was hooked. When not reading or writing, the author enjoys
travelling, either on her own or with friends.
