KurzbeschreibungAn epic, ambitious and page-turning mystery that will appeal to fans of *The Shadow of the Wind*, *Jonathan Strange and Mr Norrell* and *The Time Travellers Wife* London, 1896. Andrew Harrington is young, wealthy and heartbroken. His lover Marie Kelly was murdered by Jack the Ripper and he longs to turn back the clock and save her. Meanwhile, Claire Haggerty rails against the position of women in Victorian society. Forever being matched with men her family consider suitable, she yearns for a time when she can be free to love whom she choses. But hidden in the attic of popular author and noted scientific speculator H.G. Wells is a machine that will change everything. As their quests converge, it becomes clear that time is the problem to escape it, to change it, might offer them the hope they need. *Pressestimmen* Strange and wonderful. Magical and smart. Flix J. Palma has done more than written a wonderful novel, hes concocted a supernatural tour de force. Time travel, tragic love, murder and mystery all combine in what is nothing short of a surprising, satisfying and mesmerizing read. M.J. Rose, International Bestseller "The Map of Time recalls the science fiction of Wells and Verne, and then turns the early masters on their heads. A brilliant and breathtaking trip through metafictional time." --Scott Westerfeld, New York Times bestselling author of *Leviathan* "Palma makes his U.S. debut with the brilliant first in a trilogy, an intriguing thriller that explores the ramifications of time travel in three intersecting narratives." --starred Publishers Weekly review "Readers who embark on the journey...will be richly rewarded. --starred Booklist review "Lyrical storytelling and a rich attention to detail make this prize-winning novel an enthralling read." --starred Library Journal The Map of Time is a singularly inventive, luscious story with a core of pure, unsettling weirdness. With unnerving grace and disturbing fantasy, it effortlessly straddles that impossible line between being decidedly familiar, and yet absolutely new. --Cherie Priest, author of *Boneshaker* "Palma is a master of ingenious plotting." --Kirkus s "A big, genre-bending delight." --The Washington Post "Palma uses the basic ingredients of steampunk fantasy, mystery, ripping adventure and Victorian-era high-tech to marvelous effect. " --Seattle Times "Intellectual thriller' is not an oxymoron in this case. Eccentric, informed. Time travel, H.G. Wells, Jack the Ripper, robots, romance, changing history, destroying classic literature. Spot on narration. Good clean fun." --Tulsa World *Pressestimmen* Strange and wonderful. Magical and smart.
