Romance)Author: Christa KelleyReviewer: Stephanie JordanA Bear in Need: The Marked Book 1Can you imagine this cute little cuddly bear all soft and furry? Then he grows up and he is Big ole Grizzly Bear that can stand straight up to where he's over 6 ft tall only to see him change into this naked well endowed, muscle-building , most beautiful man you ever seen smiling at you. Well there are three Mitchell Brothers living at Star Lake they worked in the woods guarding " The Hollow " just like their dad before them.Brandon Mitchell was a skirt chaser he do anything to take his mind off the burn on his arm. Him and his brothers were cursed by a witch. Liz short for Elizabeth Malone never thought she would come back to this town.She had to come back to settle her grandmother's estate she'd been packing and looking for the book all day, guess she was staying another day. She just had to find it, then she would be on her way back to Virginia where she belonged. Than Liz saw Brandon and all the old feelings came back, she had such a crush on him in high school. This is a great book I loved it, not to many books you don't know what happening next it fantastic. You have Adventure, Betrayal, Fear , Rage and of course my favorite Hot Sex.Bear In Hiding: The Marked Book 2I've said in only a few of my reviews that if they gave a 100 stars, that will still be not enough Star's for this Book.When Ms. Kelley wrote this book she wove into her story line a topic that many women hide or are ashamed that they think they are ignorant and weak so they stay in an abusive relationship because they think it's their fault. "Spousal Abuse".Brian Mitchell went to the Jail House that the sheriff's request, just in time to see a beautiful women running smack dab into him. It took all of his strength to hold back his Bear who was raging to get out.What's does a girl have to do? Keep running, she can't stop if she does he could get her and it would be all over, she'd be back in ER, not that she wasn't used to that. BUT still Emma had to keep running, always feeling sick lately it was hard, but she can't be caught. Bear In Charge: The Marked Book 3With tears in my eyes, I have just finished the last book for The Marked andMs. Kelley held nothing back \*\*\*sigh\*\*\*\*\*blowing my nose\*\*\*\* Ohhh I loved this Series. You see life isn't perfect, there are battles, if you fight on the "white" good side you are right. It might be tuff BUT you'll win.Bryce Mitchell was losing control of his bear, for some reason his bear takes over and always wants to fight. It seems to be getting worse. And that's not all shifters were only partially shifting with no control and a few couldn't come back from the shift. Something was definitely wrong and they had to find out what. Liz and Brandon went with Bryce to the Hollow, Liz being a witch also could see something is wrong she could feel it. Both Bryce and Brandon could feel something was off and he just found out Alana is back in Star Lake.They all hated Alana for her past, well Bryce was a love/hate. But it didn't matter or did it? Alana knew something evil was happening, but what? I was gifted this ARC for an honest and truthful review.My Personal Stars Scores Marked Box SetBook Cover Rating 5+++++++StarsHero Rating 5+++++++StarsHeroine Rating 5+++++++StarsSexual Tension Rating 5+++++StarsSex Scenes Rating 5+++++++StarsPlot Development Rating 5+StarsDialogue Stars 5++StarsOverall Rating 100 StarsStorytelling Rating 5++ StarsStoryEnding Rating StarsWould I Reread These Books?? Three cursed bears and a bit of magicVon Jean SmithA Bear in Need: What sacrifice is too much in the name of love? 4 Star 7/2/15Home for the unfavorable task of settling her grandmothers estate, Liz decides to drown her sorrows after a frustrating day of packing. And why should her trip to the local bar be any better? All she wants to do is avoid her old high school tormentors. Who should walk in? None other than Brandon, the guy she had the biggest crush on and hes looking right at her. Figuring Brandon is a hot commodity and still out of her league she attempts to avoid him. But thats just not happening.Enticed by her witchy powers and a scent he cant resist Brandon approaches the woman at the bar only to discover it's Lizzie and he definitely wants some of that. A few drinks later and hes walking her back to her hotel where things get hot and heavy between the two. No one knows that there is a reason why Brandon is the king of one-night stands. Hes cursed. When he wakes and realizes Liz is his mate he slinks out the door. Unless he can find a cure for his curse no good can come of his mating Liz. Having a mate brings it all home for him and lights a fire under him to find that cure now.Just so happens Liz is his best bet for finding a cure. While the above sets the stage it by no means conveys the challenges these two face. The sexual tension, hot sex, violent pursuit of their enemy and inner turmoil these two face sets an even pace. I thoroughly enjoyed this story.A Bear in Hiding: Sometimes love helps us find the strength within 4 Star 7/11/15At the start of A Bear In Hiding, Emma wakes in a jail cell with no immediate memory of why shes there. Shes nervous and paranoid that her ex will find her. Distrustful of all men shes reluctant to accept the help Brian offers. But amazingly she finds herself trusting him almost from the get go. She has no clue of her true nature since the bite. It takes Brians shocking reveal for her to acknowledge something inside is definitely different. In the ensuing days, she will have to come to terms with her duality, her growing attachment to Brian and her need to keep running. Theyll both have to deal with a witch with questionable motivation and an ex on her trail. Emma will need to find the strength within. Brian will need to come to grips with accepting his bear and learning the balance that has eluded him. Both are in need of healing from their pasts. Luckily they have each other to work through the issues.While this was a good continuation of the series I have to admit to liking the first in the series more. A Bear In Need had just a bit more of a sense of urgency and a stronger sense of the villain. This book was a bit more angst-ridden rather than driven by the need to conquer their enemies. Dont get me wrong I like a book with a bit of angst. I guess I just like that spark of danger a bit more. All in all, though I really did enjoy A Bear In Hiding.A Bear in Charge: A perfect wrap up... A villainess that's not much of a villain after all 5 Star 8/15/15This is the showdown

the first two in the series have been leading to, Alana and Bryce. The first story A Bear in Need had you totally seeing Alana in the villains role. She is evil through and through. Well, thats what it looks like anyways. Then along comes book two A Bear in Hiding and you discover Alana has a few redeeming qualities. There is enough alluding to he did her wrong and she did him wrong, I was getting anxious to figure out just who did what. In A Bear In Charge, we finally get a clue to what is going on. We also discover that Alana has her own demons that ride her. Life hasnt been so easy since the loss of her family. Shes experienced abuse which led her down the road to dark magic. Shes felt unwanted. Shes felt betrayed. Is it any wonder she comes up short in the trust department? Alana has been doing for herself for so long she frankly doesnt know how to trust someone else to be there for her. So when she perceived shes been betrayed once again she packed up her bags, cast a curse and walked out the door leaving her mate behind. Bryce is the oldest of three bear shifters and hes been left with the responsibility of two siblings and guarding the secrets of the Hollow. A decade ago he was very much in love with Alana and she chose magic over him. Now hes a surly and cantankerous ole bear with little patience. Bryce is also having the devil of a time with his inner bear. Its a constant fight from moment to moment to stay in control. Recent events involving Alana have him totally on edge. His bear wants his mate and the human wants nothing to do with the evil witch. Well, thats what he tells himself anyways. Now something is wrong with the magic in the Hollow. Shifters are changing and not being able to return to their human forms. After dealing with a near disaster of discovery Bryce, his siblings and their mates head to the heart of the hollow to figure out just what is happening. Perhaps he could have gone on pretending he was fine if he hadnt scented his mate. Alas, life doesnt work that way. What Alana has already discovered and what the rest soon figure out is that the magic is draining from the Hollow. Of course, theyre all ready to blame it on Alana. Just one problem with that little notion, Alanas magic is tied to the Hollow as well. She has her work cut out for her convincing them all to work with her to solve the mystery and protect the Hollow. There is evil afoot and its going to take some major sacrificing to make things right. If they are all lucky theyll save the Hollow, Bryce and Alana will rediscover their love and trust and everyone will get their HEA. Well, Ill let you guess how that turns out. Just know there will be a few challenges to deal with and battles to be won. All in all this was a great ending to the series. I understand Ms. Kelley has plans for another series in this world and Im looking forward to seeing what she comes up with.\*\*\*\*\*Reviewed for Xtreme-Delusions\*\*\*\*\*
