**Von Hkan Nesser : The Mind's Eye (The Van Veeteren Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Mind's Eye (The Van Veeteren Series):

KundenrezensionenHilfreichste Kundenrezensionen3 von 3 Kunden fanden die folgende Rezension hilfreich. Murder, Mystery!Von DianaThis writer is one of Sweden's best crime writers. It is a mystery and a murder story. A husband wakes in the morning to find his wife dead in the bathtub. The husband remembers absolutely nothing of the previous evening due to a bout of drinking with his wife, and in the morning his mind is also a total blank too. There the story

starts and a mystery slowly unfolds. This book is well translated but I found it what I call a medium read as it is at times confusing and there are quite a few characters that turn up to confuse you. Perhaps that is just what the writer wants. Good read for a long train ride.

Kurzbeschreibung A Swedish crime writer as thrilling as Mankell, a detective as compelling as Wallander. . . The Mind's Eye by Hkan Nesser is the first novel in the stunning Van Veeteren series. Janek Mitter stumbles into his bathroom one morning after a night of heavy drinking, to find his beautiful young wife, Eva, floating dead in the bath. She has been brutally murdered. Yet even during his trial Mitter cannot summon a single memory of attacking Eva, nor a clue as to who could have killed her if he had not. Only once he has been convicted and locked away in an asylum for the criminally insane does he have a snatch of insight - but is it too late? Drawing a blank after exhaustive interviews, Chief Inspector Van Veeteren remains convinced that something, or someone, in the dead woman's life has caused these tragic events. But the reasons for her speedy remarriage have died with her. And as he delves even deeper, Van Veeteren realizes that the past never stops haunting the present . . . The Mind's Eye is followed by the tensely gripping Borkmann's Point. Pressestimmen "Van Veeteren is the most appealingly unlovable hero since TV's crabby physician House." -- "O, The Oprah Magazine" "Lean, atmospheric and full of existential uncertainty." -- "Richmond Times-Dispatch" "The Mind's Eye" "satisfies on every level. It is an intelligently written, cleverly plotted tale, populated with believable characters.... Nesser was superb right out of the gate." -- "BookPage" Werbetext The first novel in the internationally acclaimed Inspector Van Veeteren series
