Von Annette Maxberry : The Morrigan (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Morrigan (English Edition):

KurzbeschreibungAn Erotic Tale of Reincarnation, Magic, and Murder Since 300 BC, someone has been stalking Morgan Sheehan through time. In every lifetime, the stalker has seduced her with his Irish charm, made love to her,

and then ritualistically murdered her in cold blood. It is 1990 in New York City. Will she remember her other lives and recognize her killer in time to save herself? Is he even a man?
