gut Von Fernando Silva Sehr gut Buch. Es war genau richtig wie ich habe gesucht für meine Studien. Ich werde noch einmal von diesem Geschäft kaufen.

Kurzbeschreibung Black magic, also referred to as dark magic, stands for a form of sorcery that draws on dark and mysterious arts. It has been associated with harmful occult practices that can be harmful to people. It encompasses all those materials which are unconventional, perceptive and linked to the mysterious things in life like Jadoo, mysticism and occultism. Unlike all other works on black magic and its study, *The Mystery of Black Magic* delves deeper into the layers of this art to unravel the truth. What makes it special: -It is founded on the most dependable and accurate principles of Tantric Kriya. It is an attempt to bring the general reader closer to the concept of Tantra. Talks of the effects that various seemingly dangerous planets like Shani, Rahu and Ketu can have on a person if placed in a particular house in his/her horoscope. A complete guide to deities involved with Tantra, i.e. Shiva and Kali. Describes effects of Kaalsarpa yoga in a person's horoscope. Figures of Yantras that can help you in acquiring name, fame, wealth and progeny.
