**Von Catherine Coulter : The Nightingale Legacy (Legacy Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Nightingale Legacy (Legacy Series):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Another one of Coulter's that will captivate your heart!!Von Ein KundeIt was a very interesting book with a mystery to solve and twisted ends and twisted plots. Very confusing but a very enjoyable book to read for the charm and the wit shown by the heroine will captivate you from the hair on top of your head to the little nails on your toes. So what I suggest is that you pick up a book today and sit on a couch and enjoy a quiet evening of adventure and fun!0 von 0 Kunden fanden die folgende Rezension hilfreich. sex with substanceVon Ein KundeI started reading romance novels when I was about 11 and now I'm 16. Catherine Coulter is one of my favorite novelists and Nightengale Legacy is one of my favorite books. I like a book with substance not just sex and this book has got both. Including North Nightengale! An

excellent read!0 von 0 Kunden fanden die folgende Rezension hilfreich. A feisty leading lady make this book a must. Von Ein KundeLady Caroline is the heroine to die for in this book. She has a personality and like most women has to make it know that she has a brain. I also found it interesting how Ms. Coulter brought some characters from another trilogy (the Magic series) into this novel.

**Kurzbeschreibung** An exhilarating Regency romance from the #1 New York Times bestselling author. The second novel in Catherine Coulter's acclaimed Legacy trilogy. From Publishers Weekly The second novel in Coulter's Legacy trilogy is a delightful Regency romance brimming with drama, sex and colorful characters. It's 1814, and the young, long-haired, brooding Lord Chilton, Frederick North Nightingale, who briefly appeared in *The Wyndham Legacy*, is on his way from his Cornish castle, Mount Hawke, to London when he stops at an inn for the night. There, he meets the smart, beautiful and feisty 19-year-old Caroline Derwent-Jones, who has just escaped Roland Ffalkes, her lecherous, inheritance-seeking guardian, and is en route to the Cornish home of her aunt, Eleanor Penrose. North protects Caroline from Ffalkes, who shows up unexpectedly, but she departs before the nobleman can tell her that her aunt, whom he knew, has been murdered. North and Caroline soon meet again, though, and before long he accepts her proposal of marriage—much to the horror of his three misogynist male servants, appalled that the union will break the long-standing tradition of no women living at Mount Hawke. Coulter complicates her story line with a couple of weak plot twists involving a search for local treasure and the murder of several other women (the killer's identity and motive, when finally revealed, strain plausibility), but her witty dialogue and bawdy, eccentric characters add up to an engaging, fan-pleasing story nonetheless. Literary Guild and Doubleday Book Club selection. Copyright 1994 Reed Business Information, Inc. From Booklist As *The Wyndham Legacy* scales the best-seller lists, the second volume of Coulter's Legacy trilogy appears. A mysterious murder in 1814 on the cliffs of Cornwall opens the action; attempted rape, frantic flight, misogynistic manservants, steamy sex, and more murders follow. As in *The Wyndham Legacy*, danger, hidden treasure, and magical intervention play a role in Coulter's grand finale. This time out, our hero is Lord Chilton of Mount Hawke, Frederic North Nightingale, familiar as the brooding brother-at-arms of the Earl of Chase, Marcus Wyndham, in the first Legacy novel. Caroline Derwent-Jones, a 19-year-old heiress, is the anachronistic heroine Nightingale rescues, resists, and then ravishes—with her enthusiastic and energetic assistance. There are tiny traces here of Austen and Dickens, with heartier helpings of "The Perils of Pauline" and every other story ever marketed—like so many commodities—with the help of sex. Not much history, but plenty of romance: Coulter fans will love this frothy, sexy fairy tale. A selection of the Literary Guild and Doubleday Book Club. Mary Carroll
