The story is amazing though.14 von 14 Kunden fanden die folgende Rezension hilfreich. Ein wundervolles BuchVon Michael AmannMit seinen nicht einmal 300 Seiten ist "The Notebook" ein sehr kurzer Genuss. Ein Genuss aber trotzdem. Von Anfang an in den Bann gezogen hat mich das Schicksal von Noah and Allie einfach nicht ruhen lassen. Der Autor Nicholas Sparks, bekannt fr seine "tearjerkers", versteht es wie kein anderer mit den Herzen seiner Leserschaft umzugehen. Ein Buch, das sicherlich jedem Leser die Trnen in die Augen drckt der auch nur einen Funken Romantik in sich versprt.

KurzbeschreibungThe love story to end all love stories from the internationally bestselling author, Nicholas Sparks. Now a major motion picture starring Ryan Gosling (Golden Globe winning and Oscar nominated star of La La Land) and Rachel McAdams.'When it comes to tales about love, Nicholas Sparks is one of the undisputed kings' HeatHow far can love endure?Noah Calhoun has just returned from World War Two. Attempting to escape the ghosts of battle, he tries to concentrate on restoring an old plantation home to its former glory. And yet he is haunted by images of the beautiful girl he met there fourteen years before, a girl who captured his heart like no other.But when these distant memories begin to slide into reality, the passion that had lain still is ignited once more. Though so much is in their way, the miraculous force of their love refuses to fade..de"Somewhere," muses Noah Calhoun, while sitting on his porch in the moonlight, "there were people making love." The Notebook, a Southern-fried story of love-lost-and-found-again, revolves around a single time-honored romantic dilemma: will beautiful Allison Nelson stay with Mr. Respectability (to whom she happens to be engaged), or will she choose Noah, the romantic rascal she left so many years ago?.com"Somewhere," muses Noah Calhoun, while sitting on his porch in the moonlight, "there were people making love." Anyway, head elsewhere for Great Literature, but if you're in the market to get your heartstrings plucked, look no further. The Notebook, a Southern-fried story of love-lost-and-found-again, revolves around a single time-honored romantic dilemma: will beautiful Allison Nelson stay with Mr. Respectability (to whom she happens to be engaged), or will she hook up with Noah, the romantic rascal she left so many years ago? We're not telling, but you have two guesses and the first one doesn't count. Decades later, after Allison develops Alzheimer's, her beau uses "the notebook" to read her the story of the great love she's plumb forgot. The Notebook--film rights already sold, thank you very much--is a little glazed doughnut of a book: sticky- sweet, satisfying, not much nourishment. But who cares? Take an extra vitamin and indulge.
