Von Leonardo da Vinci : The Notebooks of Leonardo Da Vinci Complete (English Edition) before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Notebooks of Leonardo Da Vinci Complete (English Edition):

Kundenrezensionen Hilfreichste Kundenrezensionen 3 von 3 Kunden fanden die folgende Rezension hilfreich. Leonardo's Masterworks Von rareopdvds This 2-Volume collection published by Dover wonderfully exhibits Leonardo's works with his sketches, designs and ideas. If you ever wondered what Leonardo thought, then these are the books to get. The book is set up with the text in two columns; the left in the original Italian, and the right side in

the translated English. In those words are written of Leonardo's philosophical ideas, lives of where he lived and his surroundings, his theories on color, perspective, proportion, architecture, foliage, physiology and so many other things that the Great One was curious about. Throughout the book and amidst the text are Leonardos sketches, thumbnail sketches, workings of famous pieces such as the Last Supper, some anatomical drawings - and in those pages you can see Leonardo's handwriting which he tended to write backwards. The value and reference is endless, especially for the artist. This edition is reprinted from the 1833 version originally entitled "Literary Works of Leonardo Da Vinci." This is a 2-volume set, which is sold separately, but for the price, it is so worth the money. Highly recommended!

Von Ein KundeI have read both this one and volume two and I believe this is the book I have been searching for on Leonardo. It is a direct translation and if you don't believe it you can translate for yourself because the Italian is to the left of the English. The book has over 700 illustrations but only about 50 have been photo copied from the actual books, the rest are re-drawn. Overall I would buy both books and start reading.

The Notebooks of Leonardo da Vinci - Volume One Von Andrew Badalamenti Leonardo's notebooks are a staggering monument to the human intellect and Jean Paul Richter has done a remarkable job of editing and compiling Leonardo's various writings on so many subjects into a readable and unified whole. In all, Mr. Richter has done a marvelous job. His efforts have helped to bring the genius of Leonardo to an even wider readership.

Pressestimmen "This is an excellent selection, with a lot of breadth and depth!"--F.W. Blackwell, Washington State Univ. "Excellent text for intermediate and upper level courses on the arts and man. Selections are adequate and edited well. Leonardo's ideas are difficult but the translations and brief commentaries at the beginning of each section are helpful to the student and make these ideals accessible to the average student."--Orville V. Clark, University of Wisconsin--Green Bay "Excellent introduction to one of the most complex aspects of Leonardo's art."--Norman Land, University of Missouri "This is an excellent selection, with a lot of breadth and depth!"--F.W.
