Von Mark T. Barnes : The Obsidian Heart (Echoes of Empire Book 2) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Obsidian Heart (Echoes of Empire Book 2) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. gute neue Fantasy ReiheVon CustomerBarnes - is an excellent world builder in the beginning (book one and two) it takes a while even for a big fantasy fan to get into all the very complicated names and ranks of people - but once you get into the world and families and characters it is amazing.His world building is complex and different - closer to Sanderson

then Tolkien or the old Masters .. but unique again. The world has a very interesting magic that is controlled by logic in one type of people and wild in the other, then there are many species of humanoid beings ... I guess the whole world is a bit of a mix of fantasy knights and magic and SIFI - races, other worlds etc... anyway very inexpensive great new author - give him a try and don't give up after the first few pages as - once you are in the world it is great. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Etwas Weniger wie mehr. Von Stefan Irmisch Etwas zu langsam und mit den sehr vielen Namen und Orten manchmal verwirrend, wenn man nicht permanent am Lesen bleibt. Situationen in denen sich die Hauptcharaktere wiederfinden sowie deren internen Konflikte und Gedanken beginnen sich zu wiederholen, ohne dass es unbedingt neue Erkenntnisse hieraus ergibt. Gleichzeitig könnten manche Dinge etwas mehr erklärt werden, schliesslich ist nicht jeder von uns "erweckt" worden und kann auf das Wissen der Vorfahren zurückgreifen. Nichtsdestotrotz, sehr unterhaltsam und spannend. 0 von 1 Kunden fanden die folgende Rezension hilfreich. Sehr, sehr gutes Buch! Von MoDas erste Buch gefiel mir schon recht gut, aber das zweite macht einfach noch mehr Spaß, weil man sich mittlerweile besser in dieser speziellen Welt zurecht findet. Wie schon in der Rezension zum ersten Teil geschrieben, kann ich nur nochmal wiederholen:- Klasse Charaktere- extrem flüssige und gute Dialoge- gute Story- spezielle und interessante Welt

Kurzbeschreibung Echoes of Empire: Book 2 An uneasy peace has settled over the Shranese Empire, and for Indris and Mari, a life together just might be possible. But while the fighting may be over, the struggle between the two great Houses vying to rule has just begun, and caught between them are Indris and Mari warriors of the highest caliber and members of the opposing families. With the court moved to a new city, the old machinations of Maris father, Corajidin, are still churning as he maneuvers to shape the future Empire. For Mari and Indris, though, it could be the past that's their undoing, as lost lovers and forgotten flames reappear as if by dark magic. And dark magic it could be, for a dangerous alliance with witches could not only grant Corajidin control of Shran, but once again plunge the nation back into war especially after a sorcerous battle destroys much of the city and forces Indris and Mari to part ways. In *The Obsidian Heart*, the second volume of the Echoes of Empire series, darkness falls over a kingdom already reeling from a costly civil war. Can the Indris and Mari survive this new threat to save not only the ones they love, but possibly the entire world?
