**Von John Varley : The Ophiuchi Hotline (Eight Worlds)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Ophiuchi Hotline (Eight Worlds):

und sie empfohlen, so auch dieses. Ich verstehe nicht wieso manche Varley als reinen Kurzgeschichtenschreiber "abtun" und seine Romane nicht mögen. Ich mag sie und Varleys sehr moderne Vorstellungen des Menschen als einem selbstbestimmten Wesen allen Widrigkeiten zum Trotz. Nicht viele SF-Autoren sind über 30 Jahre nach Erscheinen eines Romans immer noch topaktuell und wirken nicht im geringsten alt.

Kurzbeschreibung THE BRILLIANT NOVEL THAT LAUNCHED THE VARLEY PHENOMENON The invaders came in 2050 They did not kill anyone outright. they said they came on behalf of the intelligent species of Earth dolphins and whales. The Invaders quietly destroyed every evidence of technology, then peacefully departed, leaving behind plowed ground and sprouting seeds. In the next two years, ten billion humans starved to death. The remnants of humanity that survived relocated to the moon and other planets. But they are not alone in their struggles someone or something, somewhere in deep space, is sending them advanced scientific data via the Ophiuchi Hotline. And by the twenty-fifth century, the technological gifts from the Hotline especially its biological and medical solutions have created a world unlike any ever known or imagined From the Paperback edition. Pressestimmen ""This is a novel rich in societies, setting, and technological wizardry. It's a tough-minded, yet playful book."
