**Von Henry James : The Other House (English Edition)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Other House (English Edition):

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. Unexpected Page Turner--Timeless Von Ein Kunde I am impressed with The New York Review's revival of this unexpectedly non-Jamesian title. A truly unique James choice to bring back to life--it's been done so with a cover so compelling (I'm not a traditional James fan) I opened the book which I found locally in a brick and mortar as they are now called, book shop. The internet cannot do justice to the thoughtful sophistication of this book's packaging. (But I

can purchase another copy here more easily!) The publisher's comments about the work were also compelling and complimentary to the cover art. The Other House is a mystery, a detective story, a love triangle with more than three angles--a true page turner--with a timelessly human plot and "modern" characters. Anyone thriller fan would be enchanted with it. And turning every page, holding the book, is a sensory thrill. Paper, writing, art--all representative of what any literary rebirth deserves. If it's worth bringing back--do it with quality, I say! They did--along with a whole marvelous collection of equally intriguing books, with well written new introductions. Good choices--the pieces themselves, the introduction authors and the book artist designers. Truly timeless in all ways!0 von 1 Kunden fanden die folgende Rezension hilfreich. When does the movie come out?Von Ein KundeA trusted friend sent me a copy of this new edition of The Other House, insisting that I'd enjoy it. It looked intriguing. I felt obligated to at least give it a try. I still trust the friend! I can't believe this is what is known as a Classic. I thought they were all very boring. I couldn't wait to get back to this plot and I'd never have thought it was written in the uptight Victorian era. It's more like a movie special of the week or one of the top ten best selling novels. Read it then recommend it and impress your friends with your literary depth.

KurzbeschreibungPublished: 1896The Other House is a novel by Henry James, first published as a serial in the Illustrated London News in 1896 and then as a book later the same year. Julia Bream dies after giving birth to her only child, a daughter named Effie. Julia had a horrible stepmother, so she extracts a promise from her husband Tony never to marry again as long as Effie is alive. Several years pass. Julia's old school friend Rose Armiger is in love with Tony, though she is ostensibly engaged to Dennis Vidal. In an effort to overcome the promise Tony made to Julia, Rose drowns little Effie so Tony will be free to remarry.The crime is discovered but family and friends decide to hush things up. Family physician Dr. Ramage convinces the authorities that Effie died of natural causes, Rose is sent off with Dennis Vidal, and all the people involved become, legally, accessories after the fact to murder...and they get away with it.Pressestimmen"The Other Houseis the story of a brutal crime, and its violence is not duplicated in any of Henry James's other works[It] takes place in broad British daylight, and the passions which explode in it with such force are acted out on disciplined lawns between stately British houses, deriving their wellfounded security from a banking fortune.The Other Houseis intensely British in its motives and emotions; and its intensity derives precisely from the fact that when the calm is broken, and the conflictis engaged the contrast is as of a violent rush of air into a place of quiet"Leon Edel"The Other Housecontains some of the most harrowing, compressed, and ambiguous scenes James ever wrote."Threepenny "Played out on the tidy lawns between two aristocratic houses, the staid Eastmead and the boisterous Bounds, a desperately tangled love-scrimmage spirals into a crime of unspeakable brutality, with a deeply unsettling climax. Readers left puzzled by the murky psychosexual terror of JamesThe Turn of The Screwshould give this passionate melodrama a try."Library JournalKurzbeschreibungPublished: 1896The Other House is a novel by Henry James, first published as a serial in the Illustrated London News in 1896 and then as a book later the same year.
