Von Andrei Livadny : The Outlaw (Phantom Server: Book #2) LitRPG series (English Edition) before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Outlaw (Phantom Server: Book #2) LitRPG series (English Edition):

Kundenrezensionen Hilfreichste Kundenrezensionen 3 von 3 Kunden fanden die folgende Rezension hilfreich. Very good Reader Von Udo Gradl This is the second book in the series. I did read it in one go, unable to put it down. Now I

cannot wait for the next one. Likeable and well fleshed out main Charakter and a well constructed storyline.

Kurzbeschreibung The Eurasia fleet has entered the Darg star system. The unsuspecting players look forward to the adventure of their lifetimes. Zander alone is now facing a harsh and unpredictable "alternative storyline". The girl he loved is gone. His nervous system is impregnated with artificial neurons that contain fragments of ancient AIs and their identities. Zander's body is implanted with alien artifacts that allow him to survive in the deadly cyberspace of Phantom Server. But his unique development branch pushes him toward the edge of the precipice where his every step may become his last; where future itself is vague and uncertain.
